PROJECTS

Full Stack Bank Management System

[GitHub Link](#) | [Live Link](#)

- Developed a secure banking application using Spring Boot and Spring Security with JWT-based authentication and role-based authorization.
- Implemented user lifecycle features including registration, login, KYC verification, profile management, and multiple account types.
- Built transaction features such as deposits, withdrawals, and inter-account fund transfers with real-time balance validation and transaction history.
- Designed a responsive frontend using HTML, CSS, and JavaScript with REST API integration.

Tech Stack: Java, Spring Boot, Spring Security, MySQL, HTML, CSS, JavaScript

EXPERIENCE

Java Full Stack Development Trainee

AccioJob, Remote

September 2024 – Present

- Completed full-stack training in Java + DSA, Spring Boot, REST APIs, Spring Security, MySQL/PostgreSQL, and frontend-backend integration.

Web Developer Intern

Indivm Energy Pvt. Ltd., Haryana

September 2023 – August 2024

- Built responsive webpages using HTML, CSS, Bootstrap, and JavaScript.

EDUCATION

B.Tech ECE

DCRUST University, Murthal, Haryana

Completed: 2025

SKILLS

• Backend

Java | Spring Boot | RESTful APIs |
Spring Security | Hibernate

• Frontend

HTML5 | CSS3 | JavaScript

• Databases

MySQL | PostgreSQL

• Tools

Git & GitHub | Postman | DBeaver |
Swagger UI | Docker | IntelliJ IDEA |
VS Code

ACHIEVEMENTS

Solved **800+** problems on **AccioJob**
and **200+** problems on **LeetCode**.

Maintained a **330+** day coding streak
while consistently practicing **Data
Structures and Algorithms**.

LANGUAGES

English | Hindi

Career Objective

To grow as a Backend/Full Stack Java Developer, contribute to scalable real-world applications, and develop expertise in **cloud technologies** and **microservices** within the next 2–3 years.
